## Parental Consent Form

### Study of Human Nude Figure

I understand that the nude figure is an enduring genre of representational art and that the educational objectives of this course include drawing exercises that involve the observation of a nude life model. I understand that if viewing the nude figure and discussing human anatomy offend me or my child, I am hereby advised not to register my child for this drawing class. I understand that my child is expected to behave and speak in a manner that is respectful to the life model at all times. This includes refraining from touching the model and from making offensive gestures, facial expressions, remarks, or noises. If my child fails to respect the aforementioned guidelines for life model etiquette, I can expect that he/she will be promptly dismissed from the class without refund. By registering my child for this class, I hereby consent to his/her viewing and studying the nude figure and discussing anatomy for educational purposes.
